Re: *Progeny LMS, LLC Petition for Rulemaking to Amend
Part 90 of the Commission's Rules Governing Location and
Monitoring Service To Provide Greater Flexibility, RM-10403.*

Oral ExParte Presentation

Dear Ms. Dortch:

On Friday, September 16, 2005, Janice Obuchowski, Bert Halprin and Mary Greczyn of Freedom Technologies, Inc., and Nick Frenzel of Progeny, met with staff members of the Wireless Telecommunications Bureau, including Jim Schlichting, Paul D'Ari, Paul Murray, Tom Derenge, Wayne Leighton, and Michael Rowan, to discuss several issues relevant to the above-captioned rulemaking petition concerning Multilateration Location and Monitoring (M-LMS) Service in the 902-928 MHz band. The discussion focused on public interest benefits of the rulemaking petition filed by Progeny in 2002 and on the manner in which the requested changes would mitigate any potential interference between licensed and unlicensed users in the band. Progeny's petition seeks an updated regulatory and technical framework for M-LMS at 902-928 MHz that would facilitate the rollout of valuable services.

In accordance with Section 1.1206(b) of the Commission's Rules, a copy of this letter is being filed for inclusion in the above-referenced docket. Should you have any questions or concerns in connection with this submission, please contact me at (202) 371-9100.

Sincerely,
